

Thank U

For your interest in BandstandHUB

DON'T MISS A BEAT

My name is Brian Cole founder of bandstandHUB. I have been in the Hospitality Industry as an owner of a small Bed and Breakfast in the seaport city of Newport RI. for the last 21 years. I have been asked many questions by guests over those years and would say about ninety percent have at some point during their stay asked me these 3 questions.

1. Where is the best Beach?
2. Where is the best Lobster Roll?
3. Where is good Live Music?

After 21 years ,answering the first two questions was a no brainer, and knowing where to go for music was as well but not so much details on the musician, band or type of music being played. Finding details regarding music in your local area let alone when traveling can be difficult. So, I set out to develop a platform that was musician driven and where Fans of music could find that information in real time.

I pulled together a great creative team and developed this platform for the FAN, MUSICIAN ,PROFESSIONAL IN THE MUSIC INDUSTRY AND OWNERS OF MUSIC VENUES.

The mission was to provide a community (HUB) with three focused goals.

1- **Provide the FAN of Music** one place they can discover music where they live or may travel, follow artist, bands and the type of music they enjoy.

2- **Provide Musicians, Artists and Professionals in the industry** a place they can organize their business,develop their brand,interact with others in the industry and most import connect with the general public and their fans.

3- **Provide Venues** with a source to find and communicate easily with musicians, bands and music professionals to help streamline the entertainment marketing segment of their business.
